#### **Description of first aid measures**

General advice	Contains petroleum distillate. Harmful or fatal if swallowed. Vapor harmful. May affect the brain or central nervous system causing dizziness, headache, or nausea. Reports have associated repeated and prolonged occupational exposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling contents may be harmful or fatal.	
Eye contact	Remove contact lenses, if present and easy to do. Continue rinsing. Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.	
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists. Wash contaminated clothing before reuse.	
Inhalation	Remove to fresh air. If breathing is difficult, give oxygen. Oxygen or artificial respiration if needed. If not breathing, give artificial respiration. Immediate medical attention is required.	
Ingestion	If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label. ASPIRATION HAZARD IF SWALLOWED - CAN ENTER LUNGS AND CAUSE DAMAGE. If conscious, rinse out mouth with water.	
Self-protection of the first aider	First aider: Pay attention to self-protection!

Sensitivity to Mechanical Impact No data available.

**Sensitivity to Static Discharge** This product is a static accumulator. May be ignited by friction, heat, sparks or flames.

# Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal precautions	All equipment used when handling the product must be grounded. Ensure adequate ventilation, especially in confined areas. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Avoid contact with skin, eyes and inhalation of vapors. Wear protective gloves/protective clothing and eye/face protection. Wash thoroughly after handling.	
For emergency responders	Use personal protective equipment as required.	
Environmental precautions		
Environmental precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent product from entering sewers, drains, or waterways. Local authorities should be advised if significant spillages cannot be contained. See Section 12 for additional ecological information.	
Methods and material for containment and cleaning up		
Methods for containment	Contain spillage with non-combustible absorbent material, e.g. sand, earth, diatomaceous earth, vermiculite.	
Methods for cleaning up	Pick up the absorbed material (described just above) and transfer to properly labeled containers for disposal according to local / national regulations (see Section 13).	
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.
