BUTYL RUBBER

Product Description:

White Lightning® Butyl Rubber Caulk is a high performance product that is ideal for sealing exterior gutters, corrugated roofing, pipes, aluminum and vinyl siding, lap joints, flashing, roof vents and drain spouts. Provides a watertight seal for areas exposed to the elements. For use on: aluminum/metal, concrete, mortar, plastics, rubber, stone, vinyl and wood.

Physical Properties:

Type: Butyl Rubber

Colors: White

Shelf Life: 12 Months

Flash Point: 105° F

Flammability: Combustible

Full Cure Time: 21 Days

Tack Free Time: 2 Hours

Application Temperature: 40° F to 120° F

Service Temperature: -20°F to 200°F

Vehicle: Solvent Release Butyl

Solids by Weight: 80%

Weight/Gallon: 11 lbs/gal

Painting: Painting is unnecessary, but if desired, can be done after curing for one week.

Primers: Not required

Application:

1. Remove all existing caulk
2. Clean thoroughly to remove all loose material, grease, dirt, oil, wax, loose paint, dust and soap film.
3. Remove mold/mildew with bleach (4:1 mix, water to bleach), and detergent that does not contain ammonia. Rinse surfaces and allow to dry.

10oz cartridge

• Cut tip at 45° angle.
• Puncture inner seal.
• Load cartridge into caulk gun.
• Squeeze trigger to start flow of caulk and work caulk into joint.
• Smooth caulk with proper tool.

Clean Up:

Mineral spirits, promptly clean tools and excess caulk; wash hands with soap and water.

Cautions:

See SDS
